Latest Version: 6.0

Question: 1

Which role is primarily responsible for creating and publishing API Products in API Connect?

- A. Provider Organization Owner
- B. API Developer
- C. API Product Manager
- D. Consumer

Answer: C

Explanation:

The API Product Manager packages APIs into Products, defines Plans, and publishes them for consumption.

Question: 2

In API Connect, what is the purpose of a Catalog?

- A. Store user credentials
- B. Host API definitions and runtime artifacts for a specific environment
- C. Manage developer portal themes
- D. Monitor API usage

Answer: B

Explanation:

A Catalog contains APIs, and associated policies and is bound to an environment (e.g., dev, test, prod).

Question: 3

Which security definition type is used to protect a REST API with OAuth 2.0 in API Connect?

- A. Basic Authentication
- B. API Key
- C. OAuth2 Security Definition
- D. Mutual TLS

Answer: C

Explanation:

OAuth2 Security Definition configures the API to require OAuth 2.0 tokens for access.

Question: 4

Which assembly policy validates incoming JSON payloads against a schema?

- A. Rate Limit
- B. Validate
- C. Map
- D. Transform

Answer: B

Explanation:

The Validate policy checks request/response bodies against JSON or XML schemas.

Question: 5

Which CLI command lists all catalogs in a provider organization?

- A. 'apic catalogs:list'
- B. 'apic catalog:show'
- C. 'apic catalog:list'
- D. 'apic catalog:gets'

Answer: C

Explanation:

'apic catalog:list' displays all catalogs available to the logged-in user.
