Question: 1

View the following exhibit:

Import Device - Local-FortiGate [root]

Create a new policy package for import.

Policy Package Name	Local-FortiGate
Folder	root
Policy Selection	☒ Import All (2) ☐ Select Policies to Import
Object Selection	☐ Import only policy dependent objects ☒ Import all objects

An administrator is importing a new device into FortiManager and has selected the options shown in the exhibit. What will happen if the administrator makes the changes and installs the modified policy package on this managed FortiGate?

- A. The unused objects that are not tied to the firewall policies will remain as read-only locally on FortiGate.
- B. The unused objects that are not tied to the firewall policies in the policy package will be deleted from the FortiManager database.
- C. The unused objects that are not tied to the firewall policies locally on FortiGate will be deleted.
- D. The unused objects that are not tied to the firewall policies will be installed on FortiGate.

Answer: C

Question: 2
