Question: 1

HOTSPOT

You need to configure a conditional access policy to meet the compliance requirements.

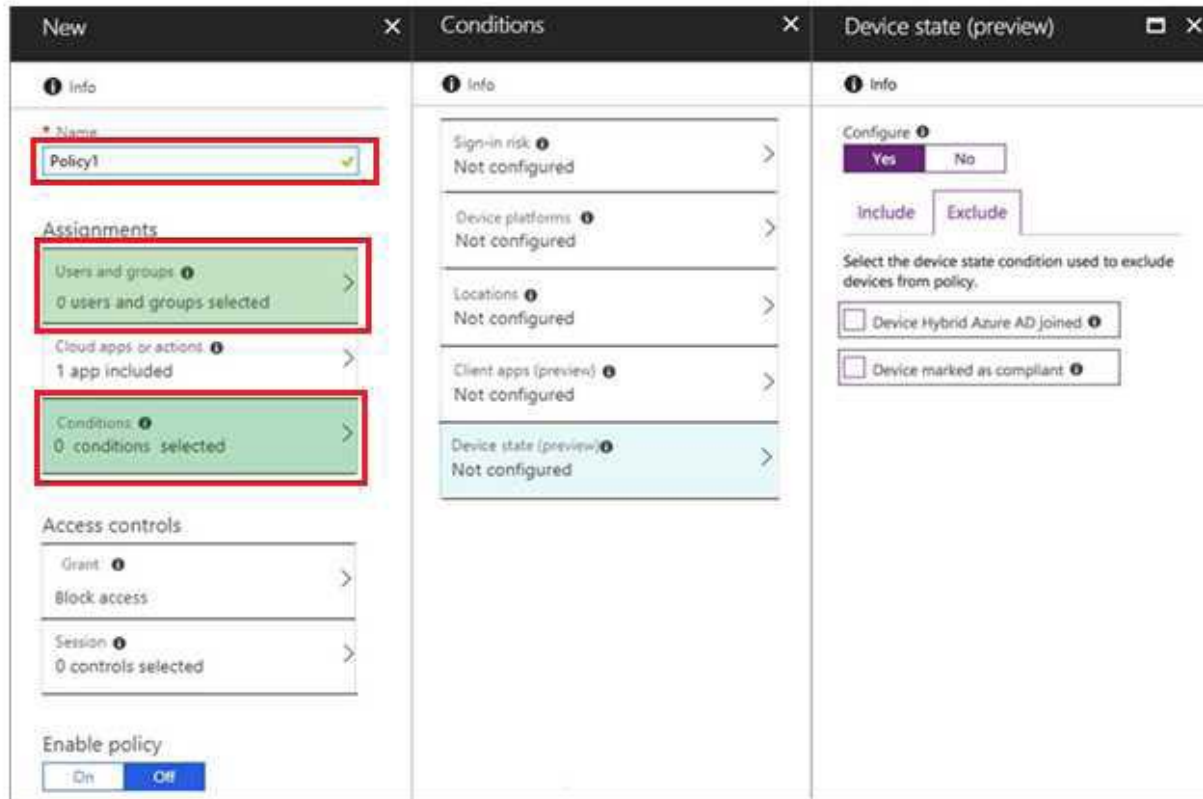

You add Exchange Online as a cloud app.

Which two additional settings should you configure in Policy1? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

The screenshot shows the configuration page for a Conditional Access policy named 'Policy1'. The interface is divided into three main sections: 'New', 'Conditions', and 'Device state (preview)'.
1. **New**: Shows the policy name 'Policy1'. Under 'Assignments', 'Cloud apps' has '1 app included'. Under 'Access controls', 'Session' has '0 controls selected'. At the bottom, the 'Enable policy' toggle is set to 'Off'.
2. **Conditions**: Lists several conditions that are currently 'Not configured': 'Sign-in risk', 'Device platforms', 'Locations', 'Client apps (preview)', and 'Device state (preview)'.
3. **Device state (preview)**: Includes a 'Configure' section with 'Yes' and 'No' buttons, and an 'Include'/'Exclude' section. Below that, it asks to 'Select the device state condition used to exclude devices from policy.' with two checkboxes: 'Device Hybrid Azure AD joined' and 'Device marked as compliant', both of which are currently unchecked.

Question: 2

On which server should you install the Azure ATP sensor?

- A. Server 1
- B. Server 2
- C. Server 3
- D. Server 4
- E. Server 5

Answer: A

Explanation:

Reference:

<https://docs.microsoft.com/en-us/azure-advanced-threat-protection/atp-capacity-planning>
However, if the case study had required that the DCs can't have any s/w installed, then the answer would have been a standalone sensor on Server2. In this scenario, the given answer is correct. BTW, ATP now known as Defender for Identity.

Question: 3

You need to meet the compliance requirements for the Windows 10 devices.
What should you create from the Intune admin center?

- A. a device compliance policy
- B. a device configuration profile
- C. an application policy
- D. an app configuration policy

Answer: C

Question: 4

HOTSPOT

You need to meet the Intune requirements for the Windows 10 devices.
