Question: 1

HOTSPOT

You need to configure a conditional access policy to meet the compliance requirements.

You add Exchange Online as a cloud app.

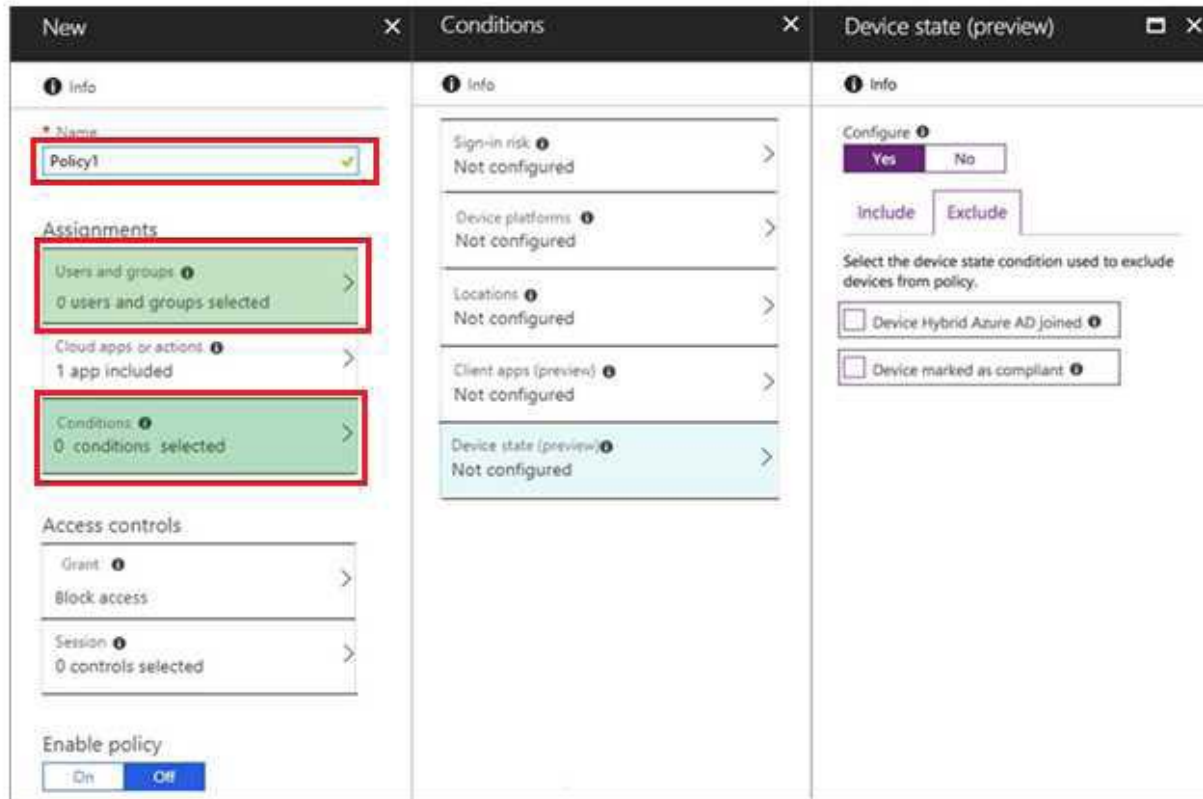

Which two additional settings should you configure in Policy1? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

The screenshot shows the configuration interface for a Conditional Access Policy named "Policy1". The interface is divided into three main sections: "New", "Conditions", and "Device state (preview)".

- New:** The "Name" field is set to "Policy1". Under "Assignments", "Users and groups" has 0 users selected, "Cloud apps" has 1 app included, and "Conditions" has 0 conditions selected. Under "Access controls", "Grant" and "Block access" are available, with 0 controls selected. The "Enable policy" toggle is currently set to "Off".
- Conditions:** This section lists several conditions that are currently "Not configured": "Sign-in risk", "Device platforms", "Locations", "Client apps (preview)", and "Device state (preview)".
- Device state (preview):** This section includes a "Configure" toggle set to "Yes", and "Include" and "Exclude" buttons. Below, it prompts to "Select the device state condition used to exclude devices from policy." with two options: "Device Hybrid Azure AD joined" and "Device marked as compliant", both of which are currently unchecked.

Question: 2

On which server should you install the Azure ATP sensor?

- A. Server 1
- B. Server 2
- C. Server 3
- D. Server 4
- E. Server 5

Answer: A

Explanation:

Reference:

<https://docs.microsoft.com/en-us/azure-advanced-threat-protection/atp-capacity-planning>

However, if the case study had required that the DCs can't have any s/w installed, then the answer would have been a standalone sensor on Server2. In this scenario, the given answer is correct. BTW, ATP now known as Defender for Identity.

Question: 3

You need to meet the compliance requirements for the Windows 10 devices.
What should you create from the Intune admin center?

- A. a device compliance policy
- B. a device configuration profile
- C. an application policy
- D. an app configuration policy

Answer: C

Question: 4

HOTSPOT

You need to meet the Intune requirements for the Windows 10 devices.
