## Question: 1

Which two administrative SQL statements can you run on a DB system?

Response:

- A. SET GLOBAL autocommit=OFF;
- B. KILL 123; /\* 123 is a connection id \*/
- C. START REPLICA;
- D. SHUTDOWN;
- E. SET sort\_buffer\_size=1024000;

**Answer: B,E**

## Question: 2

You want to set up an inbound replication:

- The source MySQL server listens on a public IP address.
- The target DB system is placed in a private subnet of a VCN in your tenancy.

Which VCN setting is required?

Response:

- A. The DB system subnet has a route rule pointing to the MySQL server IP address with an internet gateway.
- B. The DB system subnet has an ingress security rule that allows stateful connections from the MySQL server IP address.
- C. The DB system subnet has a route rule pointing to the MySQL server IP address with a NAT gateway.
- D. The DB system subnet has an ingress security rule that allows stateless connections from the MySQL server IP address.

**Answer: C**

## Question: 3

A query is not offloaded to HeatWave cluster for execution. How do you determine the reason?

Response:

- A. Use SHOW WARNINGS to view the notes after explaining the query.
- B. Use SHOW WARNINGS to view the notes after executing the query.
- C. Use optimizer trace to view the detailed optimizer process.

D. Use EXPLAIN to view the execution plan.

**Answer: C**

### Question: 4

Which MySQL HeatWave AutoML routine creates a new model?

Response:

- A. ML\_TRAIN
- B. ML\_PREDICT
- C. ML\_MODEL\_LOAD
- D. ML\_SCORE
- E. ML\_EXPLAIN

**Answer: A**

### Question: 5

Which three are prerequisites when enabling high availability of an existing standalone DB system?

Response:

- A. All tables must have a primary key.
- B. The region must have three available domains.
- C. All tables must have a foreign key.
- D. Crash recovery must be enabled.
- E. The DB system must be active.
- F. Point-in-time recovery is enabled.

**Answer: A,D,E**

### Question: 6

You export the data of a MySQL server with the MySQL Shell util.dumpInstance() method. Which option ensures that the exported data is compatible with a DB system?

Response:

- A. ocimds: true
- B. dataOnly:true
- C. dialect: csv
- D. ociParManifest: true
- E. consistent: true

**Answer: A**

### Question: 7

Which SQL statement grants all privileges to dba2 user on a DB system?

Response:

- A. GRANT ALL ON \*.\* TO dba2 WITH GRANT OPTION;
- B. GRANT SELECT, INSERT, UPDATE, DELETE, CREATE, ALTER, DROP ON \*.\* TO dba2 WITH GRANT OPTION;
- C. GRANT SUPER ON \*.\* TO dba2 WITH GRANT OPTION;
- D. GRANT administrator ON \*.\* TO dba2 WITH GRANT OPTION;

**Answer: D**

### Question: 8

What type of machine learning model do you use to predict whether a borrower will default on a loan payment?

Response:

- A. Forecasting
- B. Classification
- C. Recommendation
- D. Regression
- E. Anomaly detection

**Answer: B**

### Question: 9

You create a Bastion server to connect to a DB system created with the default port numbers. Which two configurations are required on the subnet of the Bastion server?

Response:

- A. Create an ingress rule that allows stateless connections on port 22.
- B. Create an egress rule that allows stateful connections on port 22.
- C. Create an ingress rule that allows stateful connections on port 3306 and 33060.
- D. Create an ingress rule that allows stateful connections on port 22.
- E. Create an egress rule that allows stateful connections on port 3306 and 33060.

---

**Answer: D,E**

**Question: 10**

You have created a custom configuration for MySQL HeatWave. Which two attributes can be changed after you saved the configuration?

Response:

- A. Initialization variables
- B. Compartment
- C. Description
- D. Name
- E. System variables

**Answer: C,D**
