## Question: 1

A form lists a group of recreational activities users can select when booking a vacation. One column lists the activity name, a second column provides the check box for activity selection, and a third column displays a thumbnail image of the activity. When viewed on a small screen, you do not need to display the images.

What three configuration steps would you take to support this requirement?

(Choose Three)

Response:

- A. Set the check box column to primary importance.
- B. set the image column to other importance.
- C. set the check box column to secondary importance.
- D. set the activity name column to primary importance.
- E. Set the activity name and check box columns to primary importance.

**Answer: B,C,D**

## Question: 2

In an insurance claim application, you have the following requirement: All claims must be processed within 1 week. To meet this requirement you configure a service level. Where should the service level be configured?

Response:

- A. The case type
- B. The process
- C. The step
- D. The stage

**Answer: B**

## Question: 3

Your organization has a standard loan request report that contains columns for loan ID, loan officer, work status, and a loan creation date. A manager requests a report that includes only loans created in the previous quarter and do not have a status of New.

How would you configure the report filter to support this requirement?

Response:

- A. Create two conditions: Work Condition equals New OR Creation Date does not equal Previous Quarter.
- B. Create two conditions: Work Status does not equal New. AND Creation Date is equal to Previous Quarter.
- C. Create one condition: Work status does not equal New where Creation Date is equal to Previous Quarter.
- D. Create two conditions: Work Status does not equal New. AND Creation Date is less than current quarter.

**Answer: B**

### Question: 4

You are defining a view for a loan application. If the loan applicant indicates that there is an existing open account, the Date account opened must be before the current date. How do you configure the case type to verify that the value of Date account opened is in the past?

Response:

- A. Use a calendar control.
- B. Use a pick list control.
- C. Use a when condition.
- D. Use a validation condition.

**Answer: D**

### Question: 5

Match the correct Answer in box:

Scenario		Routing type
Route job requisition approval to a reporting manager, the senior manager, then director		Single approval routing
Route an expense report to the department manager when expenses exceed USD1000		Cascading approval routing
Route support requests for customers whose preferred language is Spanish to customer service representatives who speak Spanish		Business logic routing
Route a candidate evaluation to the reporting manager		Custom routing

Solution:

Scenario		Routing type
	Route a candidate evaluation to the reporting manager	Single approval routing
	Route job requisition approval to a reporting manager, the senior manager, then director	Cascading approval routing
	Route an expense report to the department manager when expenses exceed USD 1000	Business logic routing
	Route support requests for customers whose preferred language is Spanish to customer service representatives who speak Spanish	Custom routing

Determine whether the given solution is correct?

Response:

- A. Correct
- B. Incorrect

**Answer: A**
