# Latest Version: 6.0

## Question: 1

Which actions should administrators take to ensure effective monitoring of Edge SWG devices? (Select two)

- A. Enable real-time logging of security events
- B. Set up automated alerts for critical system issues
- C. Allow all traffic without logging for better performance
- D. Disable authentication logs to reduce log storage usage

**Answer: A,B**

## Question: 2

Which policy setting allows administrators to bypass filtering for certain users or groups?

- A. Access Control Policy with User Exceptions
- B. Threat Intelligence Feed Manager
- C. SSL Certificate Bypass Rule
- D. Authentication Timeout Policy

**Answer: A**

## Question: 3

How does Edge SWG improve web performance using caching?

- A. By storing previously accessed web content and serving it to users without re-downloading it from the internet
- B. By blocking access to websites that take too long to load
- C. By forcing all users to browse in incognito mode
- D. By reducing encryption levels for faster data transmission

**Answer: A**

## Question: 4

Which benefits does Universal Policy Enforcement (UPE) provide when integrating Edge SWG with cloud security solutions? (Select two)

- A. Ensures consistent security policies across on-premise and cloud environments
- B. Extends web filtering and data protection policies to cloud applications
- C. Reduces logging for cloud-based traffic
- D. Automatically allows all traffic from cloud services

**Answer: A,B**

### Question: 5

Which security benefits does Symantec Edge SWG provide? (Select two)

- A. SSL/TLS decryption to inspect encrypted web traffic
- B. Prevention of zero-day malware threats using intelligence feeds
- C. Automatic assignment of IP addresses to endpoint devices
- D. Full replacement for all endpoint antivirus solutions

**Answer: A,B**

### Question: 6

How would an administrator restrict the ability of financial personnel to access HR records in Reporter?

- A. Configure separate databases for financial and HR records
- B. Restrict access by financial personnel to HR-related fields in the database
- C. Ensure that HR log sources are not uploaded to financial databases
- D. Assign dedicated Edge SWGs for each assigned role in the company

**Answer: B**

### Question: 7

What is the primary purpose of monitoring features in Symantec Edge SWG?

- A. To track system performance, security events, and user activity in real-time
- B. To allow unrestricted web browsing without security checks
- C. To disable web filtering policies for improved browsing speed
- D. To provide users with the ability to modify security policies

**Answer: A**

### Question: 8

Which logs should be regularly reviewed to ensure proper security monitoring in Edge SWG? (Select two)

- A. Event Logs for tracking security incidents and policy changes
- B. Access Logs for monitoring user web activity
- C. User email logs for spam detection
- D. Printer queue logs for network troubleshooting

**Answer: A,B**

### Question: 9

Which caching best practices should administrators follow when configuring Edge SWG? (Select two)

- A. Adjust cache expiration policies based on website content type
- B. Monitor cache hit/miss ratios to optimize storage efficiency
- C. Disable caching for all websites to ensure content freshness
- D. Allow users to manually modify cache settings on their browsers

**Answer: A,B**

### Question: 10

Which Symantec technology allows Edge SWG to enforce policies on cloud applications?

- A. Universal Policy Enforcement (UPE)
- B. SSL Bypass Engine
- C. Threat Intelligence Monitor
- D. Local Authentication Server

**Answer: A**
