Answer: D

Question: 4

An AEM Assets Developer has modified an out-of-the-box assets workflow and has made the changes available at runtime. Where is the new workflow design stored?
Response:

A. /var/global/settings/workflow/models/
B. /etc/global/workflow/models/
C. /conf/global/settings/workflow/models/
D. /apps/global/settings/workflow/models/

Answer: C

Question: 5

What is the benefit of using schedule-based report generation in AEM Assets?
Response:

A. It allows reports to be generated automatically at predefined intervals.
B. It limits the number of assets included in each report.
C. It ensures that reports are generated only upon user request.
D. It restricts report access to specific user roles.

Answer: A

Question: 6

A new user added to the Brand Portal has been assigned with the Viewer role. Which action is allowed for users assigned with Brand Portal Viewer role?
Response:

A. Share assets as a link
B. Share folders
C. Download Assets
D. Access to Admin Tools

Question: 7

How can you effectively leverage out-of-the-box search filters and facets to enhance content discovery and user experience?
Response:

A. By embedding custom JavaScript code in AEM pages to create dynamic search filters and facets.
B. By modifying the server's caching settings to prioritize frequently-searched content, ensuring faster retrieval times.
C. By manually editing the HTML markup of search result pages to include additional filter options and facets.
D. By using predefined metadata properties and classifications to categorize content and enable users to refine their search results.

Answer: D

Question: 8

In AEM, what is the purpose of sharing collections with other users?
Response:

A. Sharing collections reduces the storage space needed for assets.
B. Sharing collections improves the speed of asset loading in the AEM user interface.
C. Sharing collections provides a way to collaborate with others and allow them to access and use the assets.
D. Sharing collections ensures that assets are deleted permanently from the AEM system.

Answer: C

Question: 9

There is a requirement to automatically proceed to the next step in the workflow if no action is taken after 2 days. Which option would be selected in the process step by the AEM Assets developer?
Response:
