1. Up to Date products, reliable and verified.
2. Questions and Answers in PDF Format.

Latest Version: 6.0

Question: 1

You are modeling a system with specific bandwidth and latency requirements. Which viewpoint best captures this?
Response:

A. Parameters Viewpoint
B. Projects Viewpoint
C. Standards Viewpoint
D. Personnel Viewpoint

Answer: A

Question: 2

What are two outputs typically generated from the Actual Resources Viewpoint?
(Choose two)
Response:

A. Actual system configurations
B. Resource allocation plans
C. Capability goals
D. Instantiated components

Answer: A,D

Question: 3

Which view specification is essential for aligning operational activities with strategic goals?
Response:

A. Resources Viewpoint
B. Architecture Management Viewpoint
C. Strategic Viewpoint
D. Personnel Viewpoint

Answer: C

Question: 4

A modeler needs to document the mapping between resources and their responsible actors. Which viewpoint provides this mapping?
Response:

A. Resources Viewpoint
B. Personnel Viewpoint
C. Operational Viewpoint
D. Strategic Viewpoint

Answer: B

Question: 5

How does the "Traceability" column in the UAF Grid support modeling?
Response:

A. By identifying policy compliance rules
B. By enforcing interface consistency
C. By mapping relationships across different views
D. By controlling service access

Answer: C

Question: 6

How does the Security Viewpoint support enterprise architecture modeling in UAF?
Response:

A. By defining compliance metrics for cloud infrastructure
B. By modeling protective measures and security policies
C. By assigning encryption keys to each data flow
D. By limiting access to service endpoints

Answer: B

Question: 7

Why is the use of formal metamodels important in UAF traceability?

Response:

A. They simplify code deployment
B. They enforce diagram aesthetics
C. They define valid relationships and enforce structural rules
D. They enable 3D visualizations

Answer: C

Question: 8

In the Personnel Viewpoint, what element links organizational structures to operational behavior?
Response:

A. Service contract
B. Role assignment
C. Technical metric
D. Standard interface

Answer: B

Question: 9

In what two ways does the Services Viewpoint contribute to UAF modeling?
(Choose two)
Response:

A. Capturing dynamic security behavior
B. Defining interfaces and service-level agreements
C. Modeling service contracts between providers and consumers
D. Managing data encryption policies

Answer: B,C

Question: 10

When applying behavior representations in UAF, which type of model element is emphasized?
Response:

A. Time-based execution and task flow
B. Static hardware mappings
C. Service-level encryption

D. Project procurement timelines

Answer: A
