What are common indicators that a discovery-driven innovation approach is properly embedded within a team?

(choose two)

Response:

- A. Team members embrace failure as learning
- B. Leaders penalize deviating from initial plans
- C. Core assumptions are regularly tested
- D. Execution teams discourage transparent dialogue

**Answer: A,C**

### Question: 7

Why is it essential to integrate innovation activities directly into corporate strategy development?

Response:

- A. To maintain separate budgets for each function
- B. To control the innovation narrative for marketing purposes
- C. To ensure that innovation addresses the enterprise's future growth agenda
- D. To isolate innovation teams from financial oversight

**Answer: C**

### Question: 8

How can early-stage discovery-driven teams manage uncertainty while making progress?

Response:

- A. By waiting for complete data before proceeding
- B. By launching full-scale pilots immediately
- C. By defining learning goals and using staged funding
- D. By focusing on final metrics from day one

**Answer: C**

### Question: 9

In the context of discovery-driven growth, which capabilities enable faster and smarter decisions?  
(choose two)

Response:

- A. Embedding experimental discipline
- B. Encouraging strict process adherence
- C. Practicing real-time market sensing
- D. Emphasizing long-term fixed planning

**Answer: A,C**

### Question: 10

How does a “discovery mindset” influence an organization’s strategic innovation capabilities?

Response:

- A. It reduces the complexity of operations
- B. It enhances compliance with existing systems
- C. It encourages curiosity, exploration, and challenging the status quo
- D. It supports merger and acquisition activities

<b>Answer: C</b>
