Question: 2

On which server should you install the Azure ATP sensor?

A. Server 1
B. Server 2
C. Server 3
D. Server 4
E. Server 5

Answer: A

Reference:
https://docs.microsoft.com/en-us/azure-advanced-threat-protection/atp-capacity-planning
However, if the case study had required that the DCs can't have any s/w installed, then the answer would have been a standalone sensor on Server2. In this scenario, the given answer is correct. BTW, ATP now known as Defender for Identity.

Question: 3

You need to meet the compliance requirements for the Windows 10 devices.
What should you create from the Intune admin center?

A. a device compliance policy
B. a device configuration profile
C. an application policy
D. an app configuration policy

Answer: D

Question: 4
