Question: 2

Which feature of SWSS eliminates the need to repurchase software licenses?

A. software updates
B. expert support
C. license portability
D. license updates

Answer: C

When purchased with Cisco ONETM Software, SWSS provides support for license portability. During a hardware refresh, this allows you to reassign license entitlements from one hardware platform to another and eliminates the need to purchase new software licenses.

Demonstrate commitment to a customer's business objectives by suggesting complementary solutions designed to improve network performance. By tracking and managing the lifecycle of these products, your business stands to gain an ongoing annuity stream that adds up over time.

Question: 6

For on-premises deployments, which option does Cisco recommend for a consistent one meeting experience and full interoperability'?

A. Cisco Telepresence Server
B. Cisco Meeting Server
C. Cisco Expressway
D. Cisco Conductor

Answer: B

Cisco Meeting Server provides a consistent one-meeting experience for every meeting attendee, as well as open interoperability, all based on a highly scalable software architecture supporting business-quality meetings from mobile through immersive via audio, video, and web. The software has two major elements: the server software and an extension of the server in the form of an app/client that Knowledge Workers use to access and control their meetings. Cisco Meeting Server supports standards-

based video endpoints, including the Cisco portfolio of telepresence endpoints as well as third-party solutions such as Skype for Business. It includes Personal Multiparty (PMP) and Shared Multiparty (SMP) licenses, Multibrand license, and Recording port licenses
